

MEZ DAY CARE CURRICULUM

The primary goal of Mez Day Care Curriculum is to nurture children's interests and enhance their knowledge and skills, all while providing personalised support to meet their individual needs. Mez Day Care Curriculum outlines eight subjects based on children's interests for non-school-age children and STEM materials for school-age children. This Curriculum is aligned with the Approved Learning Frameworks.

Subjects Incorporated with Toys - Non-school-age Children

Mez Day Care's Curriculum for non-school-age children includes eight subjects, with each subject having a corresponding set of toys that supports children's learning in that area.

Subjects:

1. Mechanical
2. Sensorial
3. Analytical
4. Imaginative
5. Artistic and Musical
6. Athletic
7. Nature-lover
8. Linguistic and Social

STEM Resources - School-age Children

Our STEM resources provide children with opportunities to develop crucial skills and knowledge in Science, Technology, Engineering and Mathematics. Through STEM activities, children can cultivate problem-solving, critical thinking, creativity, curiosity, persistence, resilience, teamwork and collaboration skills while fostering a love of learning. These skills and knowledge are essential for success in many areas of life, making STEM resources valuable tools for children's development.

For a detailed description of the Curriculum, refer to the **Educational Programs and Practices Policy and Procedure**.
